Results-driven programming student with a strong analytical skillset

Skills

Languages
Java, Python, Javascript, SQL, PHP, CSS, HTML, C#, React-Native

Developer Tools
Git, AWS, VS Code, Visual Studio, PyCharm, IntelliJ, Jupyter, SSMS, MySQL, SQL Developer

Frameworks
.NET, Spring Boot, Selenium, JUnit

OS
Windows, macOS, Linux

Education

Software Development and Network Engineering   April 2022
(Anticipate Bridging to Honours Bachelor of Computer Science (Mobile Computing))
Sheridan College, Oakville, ON
- Object Oriented Design and Programming, Data Network Design and Configuration, Web Development/Programming, Computer Architecture, Data Structures and Abstractions

Projects

SmartDice | Java, FXML, Python | Github   June 2020 - Maintained
- Developing an application using Machine Learning models such as Long Term Short Memory (LSTM) to analyze user data and forecast outcomes
- Applied MVC architecture to handle in-memory data structures, allowing for cohesion, loose coupling, and encapsulation

Robert Koziel Website | PHP, Javascript, JQuery, CSS3 | Github | Website   April 2020
- Developed a responsive website for professional use, implementing a modern design
- Collaborated with the client to produce a product that accurately reflects client specifications
- Troubleshooted and tested issues surrounding cross-browser compatibility, ensuring final product is supported across various browsers and devices

Work Experience

Junior .NET Software Developer   Jan 2021 - May 2021
Inovex Inc., Oakville, ON
- Built new features and modules for solutions aligned with application functionality and client requirements
- Provided QA support during the implementation of RFC processes to ensure the proposed change(s) meets regulatory requirements
- Compiled and assessed QA data/documentation, conducted analysis, and risk assessment for cross-functional teams that may include Project Manager, IT, QA, and Project Sponsor

Volunteer Experience

Adult Credit Program - Digital Literacy Teaching Assistant   June 2019 - July 2019
Peel District School Board, Mississauga, ON
- Aided in the delivery of course material, covering topics such as Microsoft Office, Internet Security, and general computing skills
- Provided one-on-one assistance to mature students to enhance understanding of course material
